SUMMER,
NEVER WASTED

NEW SCHOOL,
NEW LIFE

M.M Studio

Suzhou University of Science and Technology

Greg Lindeman

Head Editor

Hi, I'm Greg.

I'm 25 and I am from Rockwall, Texas, USA.

I attended Texas Tech University where I received a Bachelor of Arts in History, Political Science, and Psychology.

I love playing basketball, reading books, watching movies, getting lost in music, and exploring the world around me.

Expressing our thoughts is one of the most valuable things we as a civilization have. Spreading ideas and desires have led us to where we currently are in the world. Today we find ourselves surrounded by social media, we have an urge to be connected to others . A magazine is one of the many tools we have access to that allows us to spread our thoughts to learn more about the people and events that circulate around the globe.

At Suzhou University of Science and Technology I believe it is important for the students and faculty to know what is going on around the University, Suzhou, and the world. On top of that, the writers who make up M.M are receiving valuable opportunities to expand their horizons. They are showing their fellow students and teachers their full capabilities, while at the same time teaching them what responsibility means.

My hope is that from reading this magazine you will learn more about your fellow classmates and more about your life at Suzhou University of Science and Technology. What you do in your college life is very important hence why we need to make it as memorable as possible. We hope you enjoy your reading experience.
